

Announcing our new Aquatica Monitor 5HD!

In our ever evolving desire to offer the greatest tools for underwater photographers and videographers, we have created a solution for photographers who need a larger view than what is available with their camera's viewfinder or rear LCD. Introducing our new 5HD Monitor...

Primary features:

- ✿ *Aluminum housing rated for 100 meters*
- ✿ *Supports focus peaking and false colour to assist in focussing and proper exposure*
- ✿ *Adjustable colour temperature*
- ✿ *Safe area (80/85/90/93/93% 2.35:1)*
- ✿ *Monitor image can be flipped horizontal, vertical, or both simultaneously*
- ✿ *New quick release sunshade, no tools needed!*
- ✿ *Sunshade can be stored in housing when travelling*
- ✿ *Compatible with other underwater manufacturer housings (using 16mm bulkhead)*
- ✿ *Available in black or red*
